Fit for your VAG

1.4 TSI Series

OIL PRESSURE SENSOR ADAPTOR

High temp. resistance.

High-press. resistant

6061 aluminium

Aluminum Alloy material

Easy installation

CONTENTS

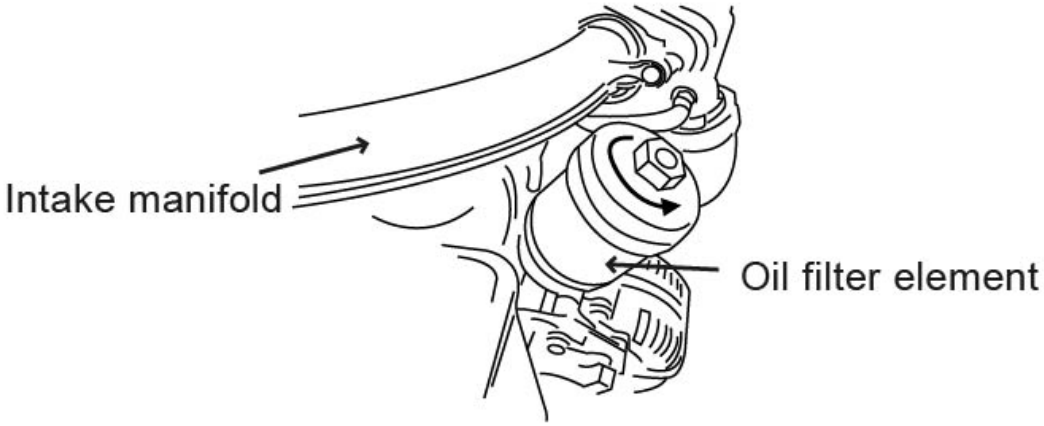

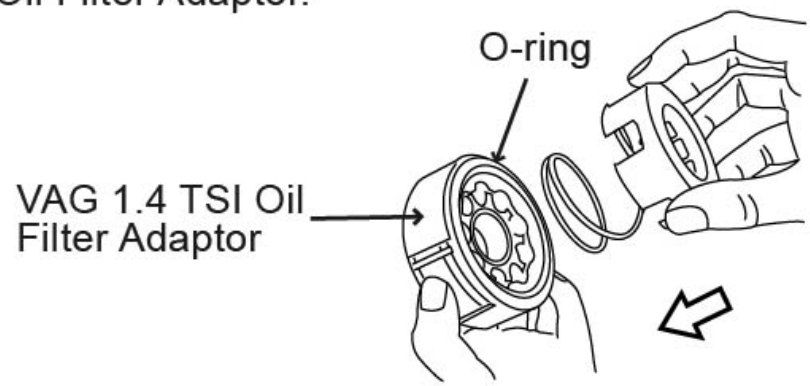

Shadow

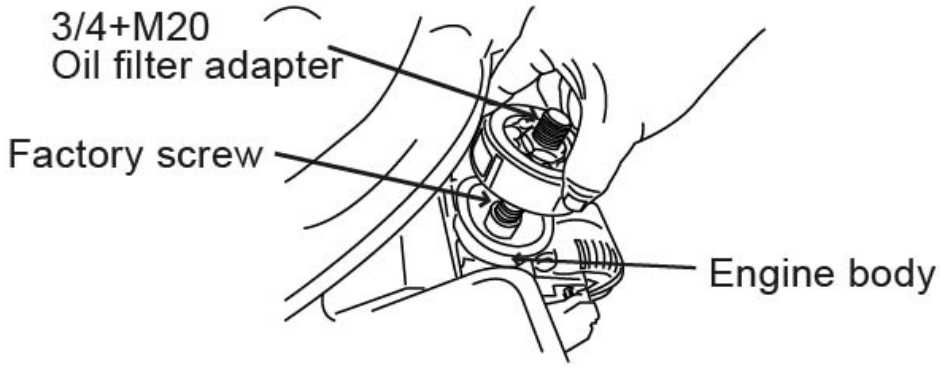

STEP 1 Please use a tool to unscrew the original oil filter element.

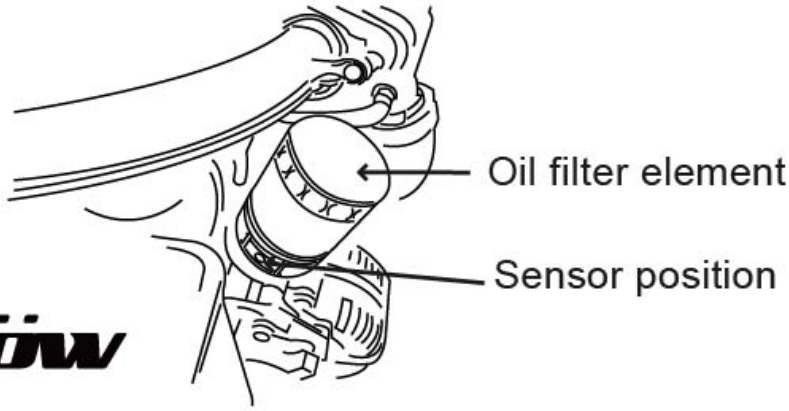

STEP 2 Install the oil pressure regulator and spring into VAG 1.4 TSI Oil Filter Adaptor.

STEP 3 Install the oil adaptor on the engine and tighten the screw adaptor. Remember to install the oil pressure regulator face down.

STEP 4 Finally, install the oil filter element on the oil adapter to complete the installation. There are two screw holes on the periphery. If the gauge sensors are not installed, please do use the internal hex-screw to prevent oil from spraying out.
